Professional Experience

POLESTAR SOLUTIONS & SERVICES PVT. LTD., Delhi-NCR

November 2020–Present

Business Intelligence Analyst

Project #1: Automation of incentive compensation for employees using Anaplan

May 2021-May 2022

Client: Leading Insurer Company across India

- Developed Anaplan functionality for incentive calculation of **8000+** client's employees working in PAN India.
- Successfully implemented new Data Hub model to store **~1 cr** policies & other relevant master data.
- Managed dynamic access for **150+** active users by establishing their roles and hierarchy within models.
- Built **200+** easy-to-use UX pages for end users' interaction with their respective subvertical models.
- Implemented Application Lifecycle Management (ALM) process by establishing Dev and Prod environment.
- Actively engaged with clients for understanding requirements, joint sessions for UAT and Go Live support.

Project #2: Built Project Management (PMS) and Timesheet Submission System

Jun 2022-Jul 2022

Client: One of the world's largest agricultural and forestry machinery manufacturers

- Developed Anaplan system for project creation and maintenance providing central hub for connected planning for stakeholders and Tech Centre.
- Created multi-level role wise approval system for the created projects and allowing their flexible updation.
- Built Weekly Timesheet Submission system and linking with PMS by recording hours billed in the approved projects and allowing end users to enter leaves, training hours etc.

Project #3: Customer and Segment Planning using Anaplan

Aug 2022-Present

Client: Leading UK-Based Alcoholic Beverages Multi-National Company

- Collaborated with client in improving the customer planning platform active across multiple regions.
- Improved user experience for commercial and data team by creating new export & import features.
